Signature conversations

The Persuasion Shift

Audience outcome: Understand how platforms, algorithms, and AI increasingly shape influence before audiences encounter a message.

Responsible AI and algorithmic trust

Audience outcome: Leave with a practical lens for adoption, governance, human oversight, attribution, and organizational credibility.

Trust, communication, and consequential decisions

Audience outcome: Recognize how message design, institutional context, and perceived intent shape judgment in high-stakes environments.

Abundance, agency, and economic power

Audience outcome: Reframe wealth and success through mindset, money, mastery, and the choices that expand personal and collective agency.
